EXPERIENCE

AE Studio, Venice, CA — Technical Product Manager

FEB'22 — MAY '23

I was the primary technical contact for clients on a number of different projects, and responsible for implementing/adapting the development process for each of the individual projects. Also wrote actual production code, including web3 development.

Além, São Paulo, SP — Product Owner

MAY '21 — DEC '21

Established an agile development process, maintained the product roadmap, testing & QA. Defined key metrics and data visualization.

absence.io, Munich, BA — Back-end Engineer

OCT '17 — JAN '21

Node.js back-end development, but also in touch with Ember.js, MongoDB. Also worked on product design, mockups and sketching.

WizeHive, Conshohocken, PA — Full-stack Engineer

APR '14 — AUG '17

Originally a PHP engineer in charge maintenance and DevOps of a monolith app. Later on transitioned to Angular.js projects.

Concepto, Vitória, ES — Software Engineer

MAR '12 — AUG '13
